Education

Jawaharlal Nehru Engineering College
Bachelor of Technology in Computer Science

Aug 2022 – May 2026
Ch. Sambhajinagar (Aurangabad)

Academic Projects

TweetWatch: An AI-Powered Online Abuse Detection system | *NLP, Express, React, Hugging Face* [View](#) | [GitHub](#)

- Developed a real-time social media monitoring system to detect online abuse and analyze public sentiment on Twitter (X) using NLP techniques.
- Implemented backend in Express with integration of Hugging Face transformers for sentiment and abuse classification.
- Enabled users to analyze tweets by keywords, hashtags, or screenshot uploads with automatic text extraction (OCR).
- Built interactive dashboards to visualize sentiment trends and abusive content spikes across time and topics.

Pet Buddy: AI-Driven Pet & Stray Care Platform | *React, PostgreSQL, Typescript Express* [View](#) | [GitHub](#)

- **AI-Powered Health Plans:** Developed an AI-driven platform to generate personalized healthcare plans, vaccination schedules, and diet recommendations based on pet breed/age,.
- **Centralized Tracking System:** Created a unified dashboard for pet health records, enabling owners and vets to track medical history.
- **Community Engagement Hub:** Integrated forums and professional chat features to connect pet owners with veterinarians.
- **Stray Care Module:** Designed reporting tool for stray animal sightings, linking volunteers with local NGOs to coordinate rescues and treatments. .

Activities and Leadership

- Finalist CODE'A'THON'24-District level programming competition
- Second Round of Dipex-2025
- Was part of JNEC Consultancy Core Team for the developement of College cms website

Coding Stats

- **LeetCode** : 170+ overall questions Solved
- **LeetCode** : 380+ overall Submissions
- **LeetCode** : 80+ medium rated
- **LeetCode** : 80+ easy rated
- **Geeks for Geeks** : 100+ overall questions Successfully submitted

Technical Skills

Programming: C/C++, Python, Data structures & Algorithms

Development: Javascript, NodeJS, Typescript, ExpressJS, MongoDB ,PostgreSQL, AWS

Tools: Github, Git, VSCode, Docker

Coding Platforms: LeetCode, GeeksforGeeks, HackerRank
